# EC Declaration of Conformity

according to Directives 72/23, 89/392 and 89/336

We, Minuteman International Incorporated, of 111 South Rohlwing Road Addison Illinois 60101 USA, declare under our sole responsibility that the products C37240-14 and C37240-18 Commercial Upright Vacuums to which this declaration relates corresponds to the relevant requirements of the EC Directives 72/23, 89/392 and 89/336. The following standards were used to determine compliance with the Directives: EN 292, EN 294, EN 811, EN 55014, EN 55104 and EN 60335-2-69.

<b>SOUND</b>		<b>VIBRATION</b>												
<b>75 dB Operator</b>	<b>71 dB At 3m</b>	<b>4.4 m/s<sup>2</sup> At Operators Handle</b>												
Tests were conducted on 7/1/96 with calibrated sound and vibration equipment under the conditions noted below: <table style="width: 100%; margin-top: 10px;"> <tr> <td style="width: 33%;">General Condition:</td> <td style="width: 33%;">Cloudy</td> <td style="width: 33%;">Wind:</td> <td style="width: 33%;">0 km/hr</td> </tr> <tr> <td>Temperature:</td> <td>29<sup>o</sup>C</td> <td>Humidity:</td> <td>85%</td> </tr> <tr> <td>Barometric Pressure:</td> <td>29.5</td> <td></td> <td></td> </tr> </table>			General Condition:	Cloudy	Wind:	0 km/hr	Temperature:	29 <sup>o</sup> C	Humidity:	85%	Barometric Pressure:	29.5		
General Condition:	Cloudy	Wind:	0 km/hr											
Temperature:	29 <sup>o</sup> C	Humidity:	85%											
Barometric Pressure:	29.5

## FOR COMMERCIAL USE ONLY

# IMPORTANT SAFETY INSTRUCTIONS

When using an electrical appliance, basic precautions should always be followed, including the following:

### READ ALL INSTRUCTIONS BEFORE USING

**WARNING - To reduce the risk of fire, electric shock, or injury: Electric shock could occur if used outdoors or on wet surfaces.**

- Do not leave appliance when plugged in. Unplug from outlet when not in use and before servicing.
- Never allow children or untrained adults to operate this equipment.
- Keep the area of operation clear of all persons, particularly small children, and pets. Keep bystanders at least 25 feet away from the area of operation.
- Use only as described in this manual. Use only manufacturer's recommended attachments.
- Do not use with damaged cord or plug. If appliance is not working as it should, as been dropped, damaged, left outdoors, or dropped into water, return it to a service center.
- Do not pull or carry by cord, use cord as a handle, close a door on cord, or pull cord around sharp edges or corners. Do not run appliance over cord. Keep cord away from heated surfaces.
- Do not unplug by pulling on cord. To unplug, grasp the plug, not the cord.
- Do not handle plug or appliance with wet hands.
- Do not put any object into openings. Do not use with any opening blocked; keep free of dust, lint, hair, and anything that may reduce air flow.
- Keep hair, loose clothing, fingers, and all parts of body away from openings and moving parts.
- Do not pick up anything that is burning or smoking, such as cigarettes, matches, or hot ashes.
- Do not use without dustbag and/or filters in place.
- Turn off all controls before unplugging.
- Use extra care when cleaning on stairs.
- Do not use to pick up flammable or combustible liquids such as gasoline or use in areas they may be present.
- Connect to a properly grounded outlet only. See grounding instructions.
- This appliance is not suitable for removal of dusts that are dangerous to health.
- This appliance is suitable only for dry cleaning and must not be used out doors.
- The power cord should be inspected regularly for signs of damage. Do not use if the cord is damaged.

## SAVE THESE INSTRUCTIONS

# INSPECTION

Carefully unpack and inspect your machine for shipping damage. Each unit is tested and thoroughly inspected before shipment, and any damage is the responsibility of the delivery carrier who should be notified immediately.

# USER MAINTENANCE INSTRUCTIONS

All service and repair should be performed by qualified service representative or electrician. No user serviceable components are employed in the electrical system. No lubrication of the motor is required.

While not in use storage can be accomplished by winding cord around rear of machine. Cord hooks are provided.

This equipment should be stored indoors and not exposed to rain.

## ELECTRICAL - Model C37115-14, 18

This machine is designed to operate on a standard 15 amp. 120 volt, 60 hz, AC circuit. Voltages below 105 volts AC or above 125 volts AC could cause serious damage to the motor.

## ELECTRICAL - Model C37240-14, 18

This machine is designed to operate on a standard 10 amp. 230 volt, 50 hz, AC circuit.

# WARNING

Electric motors can cause explosions when operated near explosive materials or vapors. Do not operate this machine near flammable materials such as solvents, thinners, fuels, grain dust, etc.

## GROUNDING INSTRUCTIONS (120V only)

This appliance must be grounded. If it should malfunction or breakdown, grounding provides a path of least resistance for electric current to reduce the risk of electric shock. This appliance is equipped with a cord having an equipment-grounding conductor and grounding plug. The plug must be plugged into an appropriate outlet that is properly installed and grounded in accordance with all local codes and ordinances.

**DANGER** - Improper connection of the equipment-grounding conductor can result in a risk of electric shock. Check with a qualified electrician or service person if you are in doubt as to whether the outlet is properly grounded. Do not modify the plug provided with the appliance — if it will not fit the outlet, have a proper outlet installed by a qualified electrician.

This appliance is for use on a nominal 120-volt circuit and has a grounding plug that looks like the plug illustrated in sketch A below. Make sure that the appliance is connected to an outlet having the same configuration as the plug. No adapter should be used with this appliance.

## POUR USAGE COMMERCIAL SEULEMENT

### MODE D'EMPLOI SECURITAIRE

Lorsque l'on utilise un appareil électrique, des précautions de base doivent toujours être suivies telles que:

#### **BIEN LIRE LE MODES D'EMPLOI AVANT USAGE**

**AVERTISSEMENT** - Pour réduire les risques de feu, choc électrique ou blessure:

- Pour réduire les risques des chocs électriques - Ne pas exposer à la pluie - Entreposer à l'intérieur.
- Ne pas quitter l'appareil lorsque la prise de courant est branchée. Débrancher de la sortie électrique lorsque la machine n'est pas en usage ou pour en faire le service.
- Ne jamais laisser des enfants ou des adultes inexpérimentés faire fonctionner cet appareil.
- Garder la zone de fonctionnement libre de toute personne, particulièrement les petits enfants et les animaux. Garder les spectateurs à une distance d'au moins 7,6 mètres (25 pieds) de la zone de fonctionnement.
- Utiliser tel que prescrit dans le livre d'opération et seulement avec les attachements recommandés par le fabricant.
- Ne pas s'en servir avec corde ou prise de courant endommagée. Si l'appareil ne fonctionne pas ou a été échappé, endommagé, entreposé à l'extérieur ou déposé dans l'eau, l'appareil devrait être envoyé à un département de service pour inspection.
- Ne pas tirer ou porter par le câble ou se servir du câble comme poignée. Ne pas fermer de portes sur le câble ou tirer le câble près d'objets pointus. Ne pas conduire l'appareil en écrasant le câble et soyez certain de protéger le câble entre toutes surfaces de chauffage.
- Ne pas débrancher en se servant du câble. Pour débrancher tirer sur la prise et non sur câble.
- Ne pas manipuler la prise ou l'appareil avec les mains mouillées.
- Ne placer aucun objet dans la sortie et ne pas s'en servir si la sortie est obstruée. Eliminer toute poussière, maillon, cheveux ou quoique ce soit qui pourrait réduire le mouvement d'air.
- N'exposer aucun cheveux, vêtement, doigts ou autres aux ouvertures de l'appareil.
- Ne rien ramasser de ce qui brûle ou de fumée tels que cigarettes, allumettes ou cendres en feu.
- Ne pas employer sans filtre de poussière ou autre en position.
- Fermer tous les contrôles après utilisation.
- Soyez très prudent lors du nettoyage d'escaliers.
- Ne pas ramasser de liquide inflammable ou combustible tel que gazoline et ne pas utiliser dans les endroits où ces derniers pourraient être présents.
- Brancher dans une prise avec une prise de terre seulement. Voir références pour prise de terre.

**CONSERVEZ CES RECOMMANDATIONS  
DE MODE D'EMPLOI**

## INSPECTION

Déballer soigneusement et inspecter la possibilité de tout dommage apparent. Chaque machine est complètement inspectée à l'usine et les dommages de transit sont la responsabilité de la compagnie de transport qui devrait être prévenue immédiatement.

## INSTRUCTIONS A L'UTILISATEUR

Toute réparation ou entretien doit être fait par un représentant de service qualifié ou un électricien. Aucune pièce de la tête de l'aspirateur ne nécessite d'entretein de la part de l'utilisateur. Aucune lubrification du moteur n'est requise.

Si non en service, on peut le ranger en enroulant le cordon à l'arrière autour des crochets.

Cet équipement doit être rangé à l'intérieur.

## ELECTRICITE – Model C37115-14, 18

Cette machine est concue pour opérer sur un circuit standard de 15 amp. 115 volt, 60 hz, circuit AC. Tous voltages en bas de 105 volts AC ou au delà de 125 volts AC pourrait occasionner des dommages au moteur.

## ELECTRICITE – Model C37240-14, 18

Cette machine est concue pour opérer sur un circuit standard de 10 amp. 230 volt, 50 hz, circuit AC.

## AVERTISSEMENT

Les moteurs électriques peuvent être la cause d'explosion si utilisés près de matériaux ou vapeurs explosifs. Ne pas opérer près de matériaux inflammables tels que solvant, gazolines, poussière de grain, etc.

## INSTRUCTIONS POUR PRISE DE TERRE (120V)

Cet appariel doit posséder une prise de terre, S'il y avait malfonction ou brisure, une prise de terre offre une voie de moindre résistance de facon à ce que le courant électrique réduise le risqué de choc. Cet appareil est équipé d'une prise de terre de même qu'une prise de courant avec prise de terre. Cette prise doit être déposée dans une sortie adéquate qui sera installée selon les exigences et les lois locales.

**DANGER** – Un mauvais assemblage du conducteur de prise de terre pourrait causer un risque de choc électrique. Vérifier auprès d'un électricien certifié ou d'une personne qualifiée si vous avez des doutes à savoir si la prise est bien complétée. Ne pas modifier la prise qui vient avec cet appariel. Si la prise n'accède pas à la sortie, un électricien qualifié devrait la remplacer.

Cet appareil doit être utilisé sur un circuit de nominal de 115/120 volt et posséder une prise de terre qui ressemble à la prise illustrée dans le schéma A. Bien vous assurer que la sortie de courant soit de la même configuration que la prise. Aucun adaptateur ne doit être utilisé avec cet appareil.

## GENERAL INSTRUCTIONS

### 1. Installation/Removal of Brush Head

Brush head can be removed by turning knob to the right. The brush head can now be separated from vacuum housing.

### 2. Handle Release

To release the machine from upright position, push down on foot release as shown in example 2.

### 3. Brush Adjustment (3) / Electronic Control (Figure 1)

Brush adjustment is made by rotating knob (3) to desired position. Always start at the highest setting and rotate to lower setting if needed (see explanation below). The two indicator lights on the brush head allows the operator to monitor brush performance. When only the GREEN LIGHT is on, brush setting is correct. When both the GREEN and RED LIGHTS are on, the brush setting is too high. Lower brush setting until the RED LIGHT goes out.

RED LIGHT may flicker when used on low nap commercial grade glue down type carpet. If RED LIGHT remains on continuously during brush operation at lowest setting (1), brush strip should be replaced. If BRUSH ASSY is obstructed, electronic control will shut off brush motor. Turn machine off and UNPLUG from ELECTRICAL OUTLET. Clear obstruction from brush assembly and restart.

### 4. Bristle Insert Replacement

Remove cover and pull brush strip out. Insert new brush strip and push it in all the way. Replace cover. CAUTION: Unplug unit from electrical outlet.

### 1. Tool Storage

Tools should be installed as shown in Figure 1. The smaller lower section of the tools should be snapped into the retainers.

### 2. Accessory Hose (Figure 2)

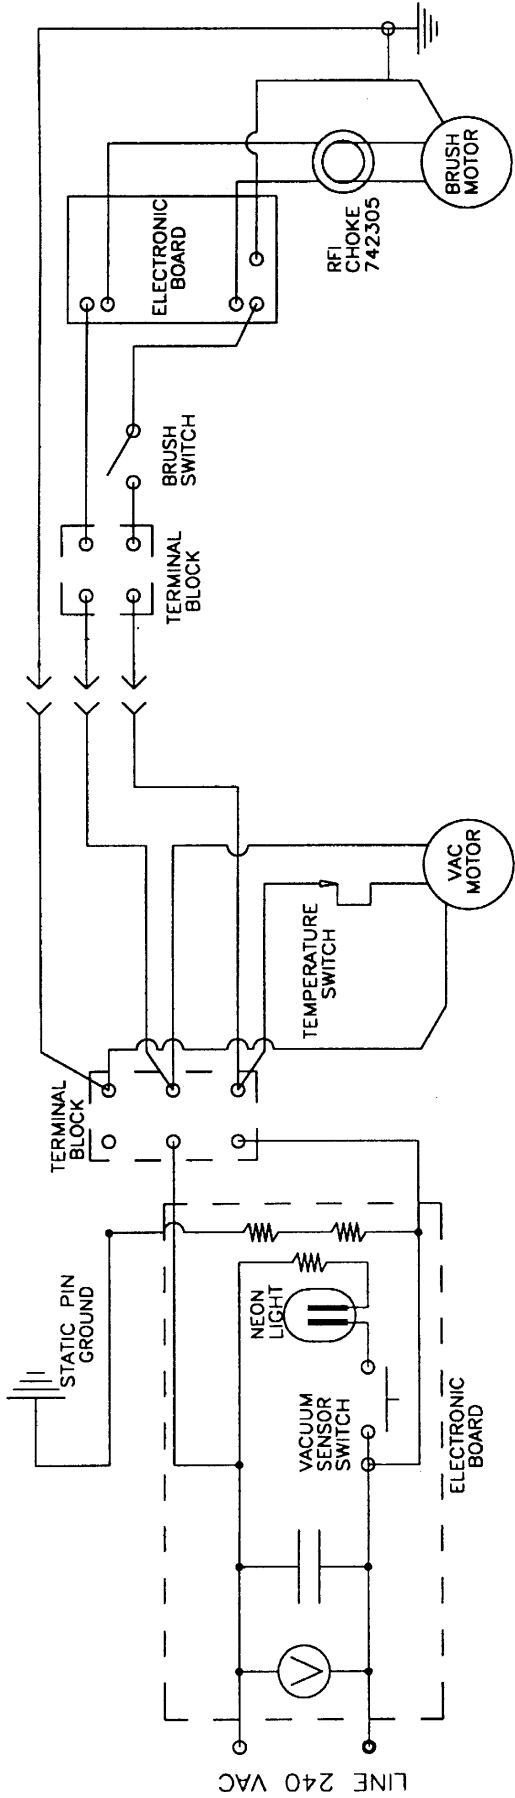

The vacuum hose can be used for direct suction use or with accessory tools. Simply pull out from base to use. NOTE: The brush motor turns off when the hose is removed from the housing.

### 3. Full Bag Indicator

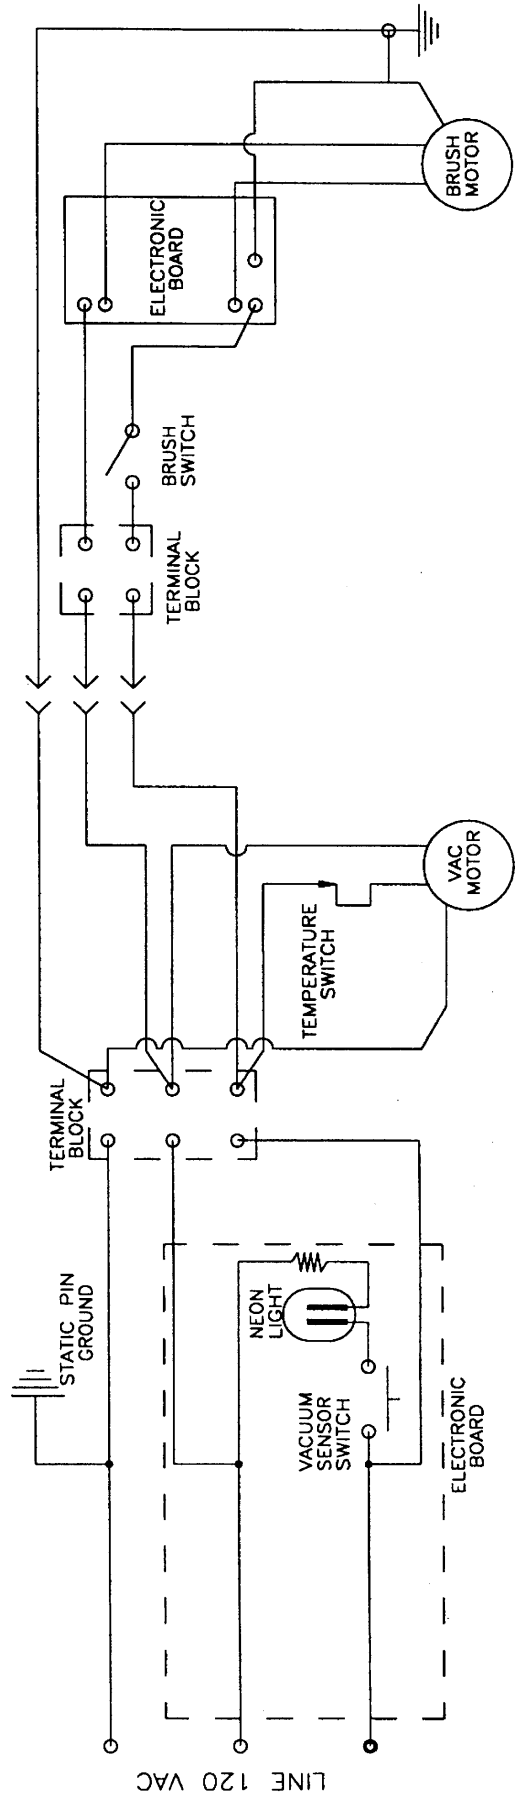

The indicator light will illuminate when the collection bag is full or when there is a blockage in the hose or brush head. Indicator light is next to on/off switch.

# LIMITED WARRANTY

Minuteman International, Inc. warrants to the original purchaser/user that this product is free from defects in workmanship and materials under normal use and service for a period of three years from date of purchase. In addition, Minuteman International, Inc. will, at its option, honor labor warranty claims for the first 12 months from date of sale, provided such claims are submitted through and approved by factory authorized repair stations. Minuteman International, Inc. will, at its option, repair or replace without charge, except for transportation costs, parts that fail under normal use and service when operated and maintained in accordance with the applicable operation and instruction manuals.

This warranty does not apply to normal wear, or to items whose life is dependent on their use and care, such as belts, cords, switches, hoses, rubber parts, electrical motor components or adjustments. Parts not manufactured by Minuteman International, Inc. such as engines, batteries, battery chargers, hydraulic pumps, and tires are covered by and subject to the warranties and/or guarantees of their manufacturers. Please contact Minuteman International, Inc. for procedures in warranty claims against these manufacturers.

**Special warning to purchaser** — Use of replacement filters and/or prefilters not manufactured by Minuteman International, Inc. or its designated licensees, will void all warranties expressed or implied.

A potential health hazard exists without exact original equipment replacement.

All warranted items become the sole property of Minuteman International, Inc. or its original manufacturer, whichever the case may be.

Minuteman International, Inc. disclaims any implied warranty, including the warranty of merchantability and the warranty of fitness for a particular purpose. Minuteman International, Inc. assumes no responsibility for any special, incidental or consequential damages.

This limited warranty is applicable only in the U.S.A. and Canada, and is extended only to the original user/purchaser of this product. Customers outside the U.S.A. and Canada should contact their local distributor for export warranty policies. Minuteman International, Inc. is not responsible for costs or repairs performed by persons other than those specifically authorized by Minuteman International, Inc. This warranty does not apply to damage from transportation, alterations by unauthorized persons, misuse or abuse of the equipment, use of non-compatible chemicals, or damage to property, or loss of income due to malfunctions of the product.

If a difficulty develops with this machine, you should contact the dealer from whom it was purchased.

This warranty gives you specific legal rights, and you may have other rights which vary from state to state. Some states do not allow the exclusion or limitation of special, incidental or consequential damages, or limitations on how long an implied warranty lasts, so the above exclusions and limitations may not apply to you.
